

## Technical Considerations

### Coconut-Based Organizations (CBOs)

- Farmer participants must be registered in the National Coconut Farmers Registry System (NCFRS)
- Must be a registered coconut farmers' organization or cooperative
- With at least 50 active members
- Priority are farmers with 0.5–1.0 hectare of farmland

## COCONUT VILLAGE DEVELOPMENT PROJECT

### Coconut Intercropping Project

## About PCA

The Philippine Coconut Authority is the sole government agency that is tasked to develop the coconut and palm oil industry to its full potential in line with the new vision of a united, globally competitive and efficient industry.

## About CVDP

Coconut Village Development Project (CVDP) through Coconut Intercropping Project (CIP) aims to provide short-term livelihood and food security projects for coconut farming families. Priority are areas with incidence of poverty and those affected areas by natural calamities.

## Coconut Intercropping Project

Coconut intercropping is a practice in coconut production to maximize land utilization. This project involves the planting of short gestation crops such as vegetables in-between spaces under coconut trees. To augment the livelihood and income of the coconut farmers, enhance food supply and mitigate hunger.

## Objectives of the project

- 1.To augment the livelihood and increase the income of coconut farmers;
- 2.To enhance food supply and mitigate hunger in rural and remote areas; and,
- 3.To open business and livelihood opportunities that will enhance the coconut entrepreneurship mindset of coconut farmers and farmers' organizations
